

EC2 > Auto Scaling groups > OluPay-ASG

the CloudWatch alarm threshold is met. Use predictive scaling policies along with dynamic scaling policies in the following situations: when your application demand changes quickly, but with a recurring pattern, or when your EC2 instances require more time to initialize.

Dynamic scaling policies (1) Info

Actions Create dynamic scaling policy

< 1 >

Target Tracking Policy

Policy type

Target tracking scaling

Enabled or disabled

Enabled

Execute policy when

As required to maintain Average CPU utilization at 60

Take the action

Add or remove capacity units as required

Instances need

300 seconds to warm up before including in metric

Scale in

Enabled

Predictive scaling policies (0) Info

Actions Create predictive scaling policy
